Question 1:

We found a mistake in the specification no. 2-1-1, point 5. «Compaction of the soil under buildings with heavy compactors of diameter 1.5m to 6-9 strokes at a time, the surface of the foundation pit: up to 100m²» - the unit of measure 100m² and the quantity 1563.00 is indicated. It turns out that it is necessary to compact 156 300 m². Can you confirm that the amount of the work is 156 300 m²? (*Am depistat o greseala in caietul de sarcini nr 2-1-1, pct 5. «Compactarea pamintului sub cladiri cu compactoare grele de diametru 1,5m la 6-9 lovituri pe o urma, suprafata groapei de fundatie: pina la 100m²»- este indicat unitatea de masura 100m² si cantitatea 1563,00. Reiese ca este necesar de compactat 156 300 m². Puteti sa ne confirmati ca este corecta cantitatea lucrarii 156 300 m² ?)*

Answer 1:

Thank you for your objection. The tile was corrected by supplement to the quotation attached to the current clarification. (see UPU.Supl. p5 Deviz 2-1-1)
